50+ Years of Excellent Educational Service!

Hello and welcome to Kiddies Korner Co-op Nursery School, Petrolia Site!

My name is Sierra Ayris and I am the Supervisor at Kiddies Korner here in Petrolia. I am the mother of one preschooler and have been in the childcare field for over 7 years.

We have been offering licensed childcare since 1972 and alongside my wonderful staff, we are looking forward to another year full of learning and creating connections with your child and your family. Our Preschool room will be led by Adriana Wallace (who has been here for 8 years), Kim Diamond-Bell and I. Katie Schreiner is our administrative assistant and support staff and Kelly Shamblaw is our cook.

This Parent Handbook outlines all necessary information regarding policies and procedures to ensure our center runs as safely and as smoothly as possible. Please hold on to this for reference throughout the year. Some important highlights to keep in mind:

- In accordance with the co-op aspect of our program, families are required to bring in a monthly healthy snack donation. Ideas include fruit, vegetables, crackers, granola bars, applesauce, bagels, English muffins, etc. Please send these items packaged (ie. not cut up) and do not send any dairy products. (See the snack section of this handbook)
- All absences must be reported by sending an email through our online reporting system petroliaabsences@kiddieskorner.ca or by calling the centre at 519-882-3009
Please provide a clean, labelled water bottle daily for your child
- Please provide clean, labelled indoor shoes as well as a spare set of clothes in your child's bag
- Kiddies Korner requires families to participate in two fundraisers per year. All proceeds directly benefit your child's learning environment at our centre
- Our main platform of communication is the SeeSaw App. Your child's individualized account will be set up on their first day. Please check this app daily as you will receive important information such as daily updates of your child's learning or if they are low on diapering supplies etc

We look forward to getting to know you and your child(ren) while you are here with us at Kiddies Korner Petrolia. If you ever have any questions or concerns please feel free to discuss these with your child's Educators and they will be happy to help in any way they can.

Warm regards,

Sierra

MISSION STATEMENT

All programs at Kiddies Korner Co-op Nursery School (Petrolia) Inc. are designed to provide a

safe, warm, nurturing learning environment for all children. The children of the centre will learn through play and inquiry. Their program will be delivered using the Four Foundations of “How Does Learning Happen: Well-Being, Engagement, Belonging and Expression.”

Kiddies Korner Program Statement:

Kiddies Korner provides a warm and welcoming play-based learning environment for all our children. We work hard to promote the health, safety, nutrition and well-being of each child by providing a clean and safe play and learn environment combined with nutritious lunches and snacks based on the Canada's Food Guide and Ministry of Education guidelines. Children have access to a healthy snack and drinking water all day, every day.

There are limited transitions during the day in order to eliminate disruptions to play that may cause undue stress to our children. Our educators and staff strive to develop trusting relationships with each of our children and to familiarize themselves with each and every child's information concerning individualized plans, medical conditions and medication requirements where necessary. We'll need to know each child's food allergies, restrictions and sensitivities based on parental information with respect to their child's health, diet and exercise needs.

All Kiddies Korner staff ensures that there are continuous, positive and responsive interactions among the children, parents, and child care providers. The Director and Board of Directors will support this through the hiring of qualified, informed and well-trained Registered Early Childhood Educators (RECE) who support families in their role as primary caregivers, and understand the individual needs of each child and the diversity of family structures.

Our staff will always encourage children to interact and communicate (verbal and non-verbal) in a positive way. They will support their learning with regard to their ability to self-regulate; acknowledging that **each child is competent, capable, curious and rich in potential.** Staff will support self-regulation in children (defined as the child's ability to gain control of bodily functions, manage emotions and maintain focus and attention). Self-regulation in early development is influenced by a child's relationship with the important adults in that child's life... this includes the teachers in our program. All staff will provide positive learning experiences that support, encourage and help young children learn to self-regulate... a crucial component of quality care and child development.

All Kiddies Korner RECE and non-RECE staff are attentive and interactive educators who foster the children's exploration, play and inquiry by providing a variety of activities in an environment rich in content that encourages choices and active play. They will provide child-initiated and adult-supported learning opportunities and experiences. They will observe and document the children at play and use that information to plan and create a positive learning environment based on the interests of the child, and supported by all the adults in the child care environment. Our teachers will continuously introduce new ideas, interests, facts, concepts, skills and experiences to widen the child's knowledge and life experiences and will also participate in regular Professional Learning Opportunities throughout the school year.

In addition to indoor play, each child will experience outdoor play (weather permitting) and quiet activities will be made available each day. We will insure that children wash their hands several times during the day; after messy play, before and after lunch and after toileting.

Regular and ongoing communication with parents is an important component. Communication might

take place during during drop off and pick up times, by phone, e-mail, Seesaw, or through written or posted communication. Communication should flow to all members of the organization, the Board of Directors, the Director, Program Supervisor and all staff.

We view our community as a valuable resource and our teachers will plan learning opportunities which tie our school program to our local community. We regularly seek out opportunities to share the knowledge and expertise of others in our community. Our Board of Directors will determine the fundraising events that take place during the school year.

All Kiddies Korner staff work hard to create a climate of trust, honesty and respect. By working collaboratively, we ensure that a safe, secure, healthy and inviting environment is provided for all children and their families. We will continue to have Lambton College Early Childhood Educator students for the 2024-25 school year.

Kiddies Korner's goal is to support children through play, inquiry and discovery and provide learning opportunities that are safe, fun and hands-on.

Our Program Statement is reviewed and revised annually.

How Does Learning Happen?

How Does Learning Happen?, Ontario’s education for the Early Years (2014), is one of the resources used by Kiddies Korner. This document has a strong educational focus, indicating that the teaching does not lay out specific curriculum or activities but instead focuses program planning be designed around how learning happens for children. **How Does Learning Happen?** is organized around four foundational conditions that are considered essential for optimal learning and healthy development for children. These four foundations together apply, regardless of the child’s age, ability, culture, language, geography, or setting. Children naturally seek these conditions for themselves and they should not be viewed as separate elements.

<p style="text-align: center;"><u>Belonging</u></p> <p>Belonging refers to a sense of connectedness to others, an individual’s experiences of being valued, of forming relationships with others and making contributions as part of a group, a community and the natural world.</p> <p>Every child has a sense of belonging and will contribute to their world when they have a sense of connectedness to others and feel valued. Our educators and administrators build a child-focused philosophy into our programming and strive to build healthy relationships with each and every student.</p>	<p style="text-align: center;"><u>Well Being</u></p> <p>Well-being addresses the importance of physical and mental health and wellness. It incorporates capacities such as healthy eating habits, self-care, sense of self, and self-regulation skills.</p> <p>Every child is developing a sense of physical and mental health and awareness. Our educational staff strives to deliver a program that fosters healthy living, self-regulation skills and positive self-awareness both indoors and outdoors.</p>
<p style="text-align: center;"><u>Engagement</u></p> <p>Engagement suggests a state of being involved and focused. When children are able to explore the world around them with their natural curiosity and exuberance, they are fully engaged. Through this type of play and inquiry, they develop skills such as problem solving, creative thinking, and innovating, which are essential for learning and success in school and beyond.</p> <p>Every child is an active and engaged learner who explores the world with body, mind and senses. Our play-based program plans experiences and creates an environment that accommodates the diversity of each child’s learning.</p>	<p style="text-align: center;"><u>Expression</u></p> <p>Expression or communication (to be heard, as well as to listen) may take many different forms. Through their bodies, words, and use of materials, children develop capacities for increasingly complex communication. Opportunities to explore material supports creativity, problem solving, and mathematical behaviors. Language-rich environments support growing communication skills, which are foundational for literacy.</p> <p>Every child is a capable communicator that expresses themselves in many ways. Our educational staff foster all forms of expression – verbal, non-verbal and use of artistic materials.</p>

Other documents used for delivering our program include Think, Feel Act and the ELECT Document.

Parent Participation within a Co-operative Nursery School

What is a Co-op?

Co-operatives are associations formed and democratically directed by people who come together to meet common needs. Founded on the principle of participatory governance, co-ops are governed by those who use their services: their members.

Based on the principles of empowerment, education, and community, co-ops operate laterally promoting participation both within their own organization, and through a focus on community interaction, and support.

Parent Involvement

Kiddies Korner Co-op Nursery School (Petrolia) Inc. operates on the premise of parent involvement to partake in the responsibility of the preschool program. The goal of the Co-op experience is to provide a wonderful parent education with increased understanding of childhood development while developing relationships with other families, teachers and children within the community.

The Co-op experience, truly unique for both parent and child, provides a setting in which you can observe and help your child grow and interact with others, and develop a natural curiosity and a love of learning. The co-operative aspect of our school is stressed in everything that we do. Without parent involvement the school would not exist and run smoothly. This helps keep our costs low and keep parents involved with their child's educational experiences in a positive way.

All members are required to:

- abide by the policies of the school,
- abide by the Parent Handbook of the school,
- attend at least one general meeting each year
- participate in 2 fundraisers each year
- donate ONE snack per month; morning or afternoon snack for 16 children
